

Clear Pond

Survey Date: June 17-18, 2020

Last Surveyed: Never

Survey Team: P. Bly, M. Privee

Lake Description

Clear Pond is a 104.5-acre pond adjacent to Rainbow Lake in the town of Brighton, of Franklin County. It is in the St Lawrence River Watershed with 2.8-miles of shoreline. The team launched one motor boat off a private soft launch on the southeastern side of Rainbow Lake.

Aquatic Invasive Plant Presence

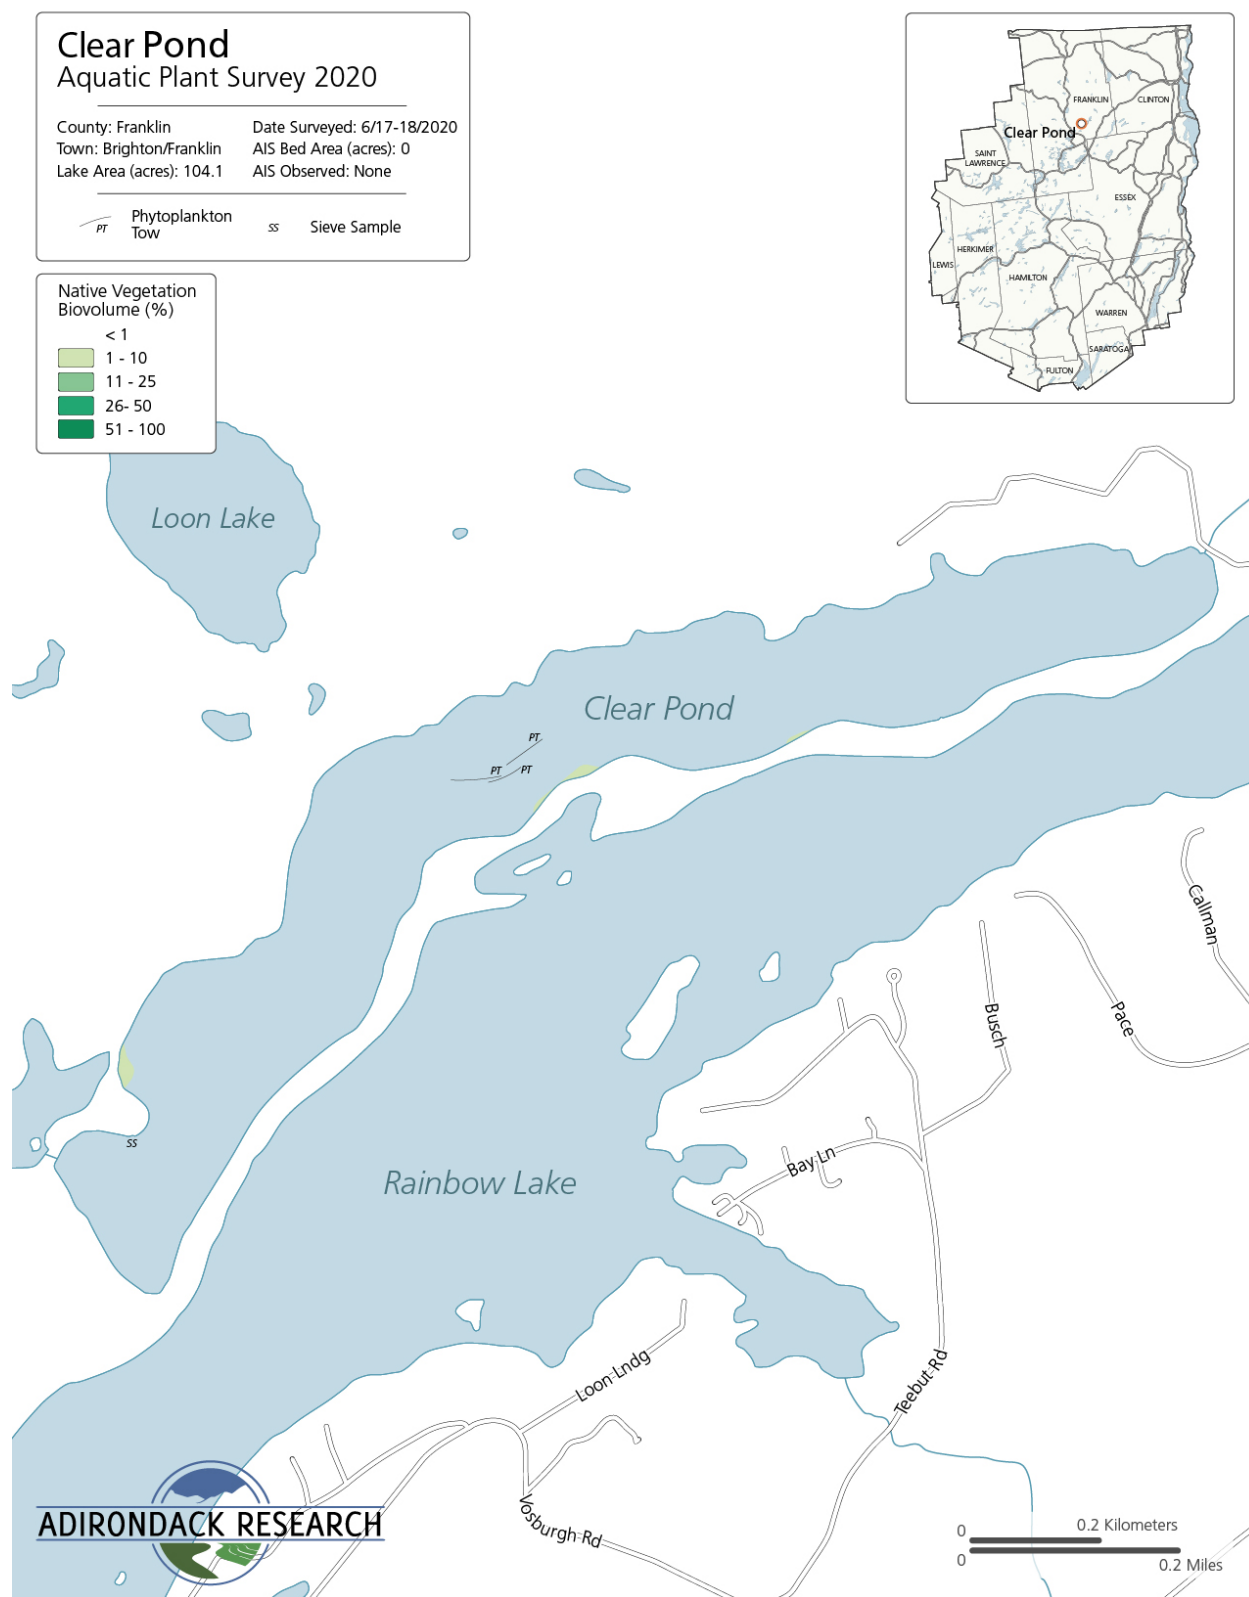

No invasive plants were detected.

Native Plant Biota

Comprehensive surveys of all native plants found within the lake were recorded. Native plants detected included: *Potamogeton amplifolius* (large-leaf pondweed), *Brasenia schreberi* (watershield), *Nuphar lutea* (spatterdock), and *Sparganium angustifolium* (narrow-leaf bur-reed).

Aquatic Invasive Animal Presence

Sediment sieves were taken to determine the presence of *Corbicula fluminea* (Asian clams). None were detected. Three plankton tows were also conducted with no invasive zooplankton detected.
