

Rollins Pond

Survey Date: June 22, 2020

Last Surveyed: 2017

Survey Team: M. Privee, P. Bly

Lake Description

Rollins Pond is 453-acres and has 8.46-miles of shoreline. It is located in the town of Santa Clara, Franklin County and lies in the Lake Champlain watershed. The team launched one motorboat at the boat launch on Adirondack Park Preserve Road, located at the east of the lake.

Aquatic Invasive Plant Presence

No invasive plants were detected.

Native Plant Biota

Comprehensive surveys of all the native plants found within the lake were not prioritized in 2020 as this data has previously been collected in 2017. A combination of native floating and submerged plants was detected. These species include: *Nymphaea odorata* (white water lily), *Nuphar variegata* (spatterdock), *Potamogeton amplifolius* (large-leaf pondweed), *Elodea canadensis* (common waterweed), *Nitella spp.* (stonewort), *Brasenia schreberi* (watershield), *Pontederia cordata* (pickerelweed) and *Sparganium angustifolium* (narrow-leaf bur-reed)

Aquatic Invasive Animal Presence

Sediment sieves were taken to determine the presence of *Corbicula fluminea* (Asian clams). None were found. Three plankton tows were also conducted with no invasive zooplankton detected.
