

## Streeter Lake

**Survey Date:** July 11, 2019

**Last Surveyed:** 2014

### Lake Description

Streeter Lake is 68.14-acres and has 1.66-miles of shoreline. It is located in the town of Fine, St. Lawrence County and lies in the Oswegatchie River watershed. The team launched two canoes at the hand launch on the north shore of the lake.

### Aquatic Invasive Plant Presence

No invasive plants were detected.

### Native Plant Biota

Comprehensive surveys of all the native plants found within the lake were not prioritized in 2019. Native plants found were: *Nymphaea odorata* (white water lily), *Nuphar lutea* (yellow pond lily), *Brasenia schreberi* (watershield), *Potamogeton natans* (floating leaf pondweed), *Eleocharis* spp. (hairgrass), *Vallisneria americana* (eelgrass), *Eriocaulon* spp. (pipewort), *Utricularia purpurea* (large purple bladderwort), and *Potamogeton epihydrus* (ribbon leaf pondweed).

### Aquatic Invasive Animal Presence

Sediment sieves were taken to determine the presence of *Corbicula fluminea* (Asian clams). None were found. Three plankton tows were also conducted with no invasive zooplankton detected.
